

STORENGY AND ITS COOPERATORS SHOW THEIR SUPPORT FOR THE HAITIAN VICTIMS

STORENGY SUPPORTS THE HUMANITARIAN ASSOCIATION CODEGAZ

After the humanitarian and material disaster which happened in Haiti on 12th January, 2010, Storengy has decided to support the Haitian victims through Codegaz by transferring 5000 Euros.

Codegaz is a humanitarian association of GDF SUEZ whose principal mission is to grant humanitarian aid to populations of the fourth world and developing countries.

This exceptional donation will be used for the container transport of medical supplies needed for surgical interventions and care for the injured.

Storengy had already supported Codegaz in the international solidarity programme for India in 2007-2008.

FUNDRAISING AMONG THE PERSONNEL OF STORENGY

On an island which is considered as one of the poorest in the world, infrastructure has been reduced to nothing by a destructive earthquake. In order to bring tangible reconstruction aid to this country, the internal NGOs of the GDF SUEZ Group (Codegaz, Aquassistance, Energie Assistance) need more short and long term financial means.

Storengy has mobilised the members of its staff by asking them for individual generosity. Several associations which are partners of the GDF SUEZ Group or which have been chosen for the emergency action they are currently carrying out in Haiti, come into consideration for receiving donations.

The funds raised during this operation will be used to finance reconstruction projects, in cooperation with NGOs on location.
