

Results for Gas Storage Capacities sales of « Saline Plus » and « Saline 3 ans », on May 5th and 7th, 2009

Newsletter May 7th 2009

Storengy has offered in agreement with the Direction Générale de l'Énergie et du Climat, to complement the initial offer on a part of the 1377 GWh capacities remaining from Saline following the allocation process of April 1st 2009.

To meet clients's requests expressed during workshop organised on March 31st, 2009, slot sales were put in place on the 5th and 7th of May. The capacities put up for sale represented a total of 1077 GWh.

Following the two sales, **700 GWh of gas storage capacities were sold** to 2 companies.

The remaining capacities (377 GWh on "Saline Plus") are offered on a "first come, first arrived" basis.

Conditions to obtain these capacities have to be downloaded from on our website <http://www.storengy.com>.
