

Result of the sale of storage capacities « Saline Plus Juillet »

Newsletter June 9th, 2009

Storengy proposed to the market 377 GWh of remaining capacities following the « Saline Plus » sale of storage capacities held on May 5th, 2009.

These capacities were offered between May 27th and June 10th on a “first come, first served” basis for a contract beginning on July 1st, 2009.

« **Saline Plus Juillet** » is designed with a specific inventory tunnel on line with the start date of the contract and with the same physical characteristics as « Saline Plus » : **30 days** of nominal withdrawal and **61 days** of nominal injection.

All the offered capacities (377 GWh) have been subscribed at the price of 12,20 euros/Mwh/year.
