

Sales of gas storage capacities « Saline Plus » and « Saline 3 ans », on May 5th and 7th, 2009

Newsletter April 17th 2009

Storengy organizes two sales of storage capacities on the storage group Saline on May 5th and 7th, 2009.

These capacities are part of those still available on the storage group Saline at the end of the allocation process of April 1st, 2009 and are offered in agreement with the Direction Générale de l'Énergie et du Climat.

Sale of gas storage capacity « Saline Plus » on May 5th, 2009

The sale relates to a total gas storage capacity of **677 GWh**, which will be acquired for the **period June 1st, 2009 (6.00 am) to April 1st 2010 (6.00 am)** [10 months].

According to the small quantity of the product offered, Storengy was able to adjust **exceptionally** the number of nominal days for withdrawal and injection, to meet the markets' requests: **30 days** of nominal withdrawal and **61 days** of nominal injection.

Sale of multi-annual gas storage capacities "Saline 3 ans" on May 7th, 2009

The offered capacities « Saline 3 ans » relate to a minimal envelope of gas storage capacities of **400 GWh**. They are sold under the 2009/2010 offer conditions (18 days of nominal withdrawal and 105 days of nominal injection) **and for the period June 1st, 2009 (6.00 am) to April 1st 2012 (6.00 am)**.

The physical characteristics of "Saline Plus" and "Saline 3 ans" as well as the participation conditions can be download on our website <http://www.storengy.com>.
